

Electric Machines and Control

An International Journal of Scientific Research

Electric Machines and Control, hosted by Harbin University of Science and Technology, is a high-level international science and technology academic journal, and its predecessor is Journal of Harbin Institute of Electrical Technology, founded in 1959, then the present name from 1997. It is now published monthly. Its International publication number is ISSN 1007-449X, and National publishing number in China is CN 23-1408/TM.

Electric Machines and Control adheres to its features and aims to show the latest and creative academic achievements in fields of electrical engineering, control science and engineering home and abroad. It is well known and highly prestigious in the electrical technology industry .Published range: Motor and Electrical, Power Systems and its Automation, Power Electronics and Power Drives, Electrical Theory and New Technology, High Voltage and Insulation Technology, Control Theory and Control Engineering, Testing Technology and Automation Devices, Navigation Guidance and Control, Measurement Technology and Instruments. Target readership: teachers and students from colleges and universities, and research specialist staff from scientific research units, enterprises and institutions.

Electric Machines and Control is cited by EI Compendex database, as well as the National Chinese core journal, the core journal of China Science and Technology. It is also cited by more than ten searchable database and abstract publications, including the British Science Abstracts (SA, or INSPEC), Russian Digest Magazine (AJ), "Chinese Science Citation Database" (CSCD), China

Science Abstracts (CSAC, English version) and so on. Currently, the journal has been recognized as the famous (or authority) academic journal by key universities and research institutes. Moreover, Electric Machines and Control has won a number of awards and honors, including the First Prize of “Excellent Executive Award of CAJ-CD Regulations”, the Second Prize of "National Award of Outstanding College Journal of Science and Technology", the Second Prize of “National Award of Outstanding College Journal”, "Top 10 Journal Award" among 8 Provinces in Northern China", and the First Prize of “National Excellent Editors Quality Award of Journals of Science and Technology”.
